

# What's Killing Beech Trees?

## A new disease is killing beech trees in Ohio.

Plant scientists are sounding an alarm while looking for an explanation. Researchers and naturalists from The Ohio State University and metroparks in northeastern Ohio reported on the emerging “beech leaf disease” epidemic, calling for speedy work to find a culprit so that work can begin to stop its spread.

Join one of the authors and our own **Dr. Enrico Bonello**, to learn the latest details on beech leaf disease.

**LOCATION:** OSU Extension  
490 S. Broad St. Canfield, OH 44406

**CONTACT:** 330-533-5538

**COST:** \$5 per person

**ISA Credits Available**

**Tuesday, March 31**  
**2pm-3:30pm**
