

CFAES

THE OHIO STATE UNIVERSITY EXTENSION

Naturalist Series: Humans and Wildlife

MONDAY, NOVEMBER 9 • 6:30 P.M. – 7:30 P.M

**SPEAKER: Jonathon Cepek, Wildlife Ecologist –
Cleveland Metroparks**

People have changed Ohio's landscape since the time of the earliest land surveys in the late 1700s. Wildlife was affected by these changes and some species have responded and adapted to urban (developed) areas. Learning how and why wildlife not only use but thrive, in urban (developed) areas allows humans to understand the influence they have on wildlife species and how to prevent human-wildlife conflict.
