

Naturalist Series: Bees in Your Ohio Backyard

Thursday, May 19th • 6:30 P.M.

SPEAKER: Denise Ellsworth, Program Director- Pollinator Education

Many naturalists know a honeybee when they see one, but how about the other 400+ species of bees that call Ohio home? This program will focus on some of the most common bees, including their fascinating biology and life histories. Why do bumble bees vibrate their wing muscles to the tone of a middle C? How uncommon are queens in the bee world? Why do leafcutting bees cut discs from leaves and petals? And how important are these native bees to pollination and biodiversity?

Class to be held IN-PERSON at the Mahoning County Extension Office: 490 S. Broad St., Canfield, OH 44406

COST: FREE

***Current health guidelines and regulations will be followed.**

Speaker: Denise Ellsworth, Program Director - Pollinator Education
