

Naturalist Series: My Mahoning River- A River of Opportunity

THURSDAY, August 17 • 6:30 P.M.

**SPEAKER: Stephanie Dyer, Environmental Program
Manager, Eastgate Regional Council on
Governments**

The Mahoning River built the communities it flows through, but overtime became the region's dumping grounds. Water quality in the river deteriorated because of pollution and the placement of low head dams. Today, through incredible dedication, teamwork, and a strong vision the river is rebounding into a river of opportunity. Join us as we discuss the water quality improvements undergoing in the Mahoning River and the opportunities that await it!
