

# Naturalist Series:

## Weather, Climate, and Climate Change Impacts on the Environment

WEDNESDAY, November 20 • 6:30 P.M.

**SPEAKER:** Aaron Wilson, State Climatologist of Ohio; Assistant Professor - Ag Weather and Climate Field Specialist, Department of Extension

How often do we find ourselves asking, what's up with the weather? Weather is such a vital force in our lives and something that we experience daily. Evidence clearly demonstrates that our weather patterns, or climate, are changing. But the changes we experience depend greatly on where we live. In this presentation, we will discuss the observed changes in temperature and precipitation over recent decades, from a global overview to local changes right here in Ohio. We will highlight the key impacts on our environment, from plants and animals to natural resources, gardening, and communities. We will end our discussion on ways we can individually and collectively adapt to and mitigate future expected changes.

**Class to be held IN-PERSON at the Mahoning County Extension Office: 490 S. Broad St., Canfield, OH 44406**

**COST: \$5 or \$30 for the entire Naturalist Series**

**REGISTRATION INFORMATION.** Registration includes program and handouts.

Please mail to 490 S. Broad St. Canfield, OH 44406, and make checks payable to OSU Extension.

Drop off the registration to the OSU Extension Office in Canfield. The program is filled on a "first come, first served basis."
