

Mahoning County 4-H

4-H Cloverbuds

Ohio's 4-H Cloverbud Program is for youth age 5 and in kindergarten until they reach age 8 and in the third grade.

The 4-H Cloverbud program exists as a distinctive component within the total 4-H youth development program. It is designed as a non-formal approach to developing the confidence, social skills, decision making abilities, subject matter knowledge, and physical skills of kindergarten through second grade youth. As youth begin their 4-H Cloverbud experience, they take part in a unique blend of activities and opportunities specially designed for their age level.

Goal of the Cloverbud Program:

The primary goal of the Cloverbud program is to promote children's healthy development—mentally, physically, socially, and emotionally. The Cloverbud program provides an excellent opportunity for children to reach his or her highest potential because early life experiences, even subtle ones, affect future development.

All of this is done through leader based activities which are fun, positive, noncompetitive and group centered.

Areas of Exploration:

- Healthy lifestyles
- Earth/Environment
