And She Keeps On Rambling On!

APRIL! We are getting there. Another crazy mixed up ‘winter’ season in NE Ohio. Seems like the unexpected has become what to expect. I am in “what to do first” mode right now. I have been so busy with so many MGV activities (like teaching classes – so time much time at the computer) that I am just starting to think about outside. Of course, my ever ending ‘I want this and I want to do that’ list continues to grow. My husband says that list should go to the grave with me! Hum, is there a hidden meaning in there?

If you did not attend our SPRING INTO ACTION seminar and garden art sale, - you missed a great activity! It was a cold, damp day, but it was a great day for learning. Since this was Mahoning Counties’ MGVs first attempt at hosting a seminar in a long time, we learned a few things about what worked and maybe what not so much. THANK YOU to all who helped with any part of this affair. I lost count of how many MGVs helped set up, baked cookies, take down, registered folks, etc. Great team effort! A HUGE THANK YOU to your fellow MGVs who taught a class or two. David, Pam, June, Lillian, Lucia, Shelia, Marilyn, Bill, Tim Parks of Parks Garden Center, and of course, the guy who made it all happen, our outstanding leader, ERIC. I talked to MGVs from 4 other counties, thanking them for making the trip. They were very complimentary of what they saw going on here. Some asked about next year. Time to start thinking about that now!

We are at the halfway point in training the newest Mahoning MGVs. What a great group. All of them are experienced volunteers of some sort. They are eager to learn, are asking amazing questions – tying their best to keep Eric and Bill on their toes. I am anxious for you to help them feel welcome. They are asking lots of questions about committees, and are looking forward to being on our team.

Dates to save:
Quail Hollow plant sale May 6 & 7th.
Fellows plant sale May 12, 13, & 14th.
Holborn Herb Growers Guild Plant sale at the Pumpkin Barn, Canfield Fairgrounds - May 20th.

April MGV Meeting

Join us at our April meeting to hear about our own Danita Davis's adventures on her Master Gardener trip to Ecuador.

Pam Baytos
OSUE MGV

**NOTE:** The meeting will be held on Thursday, April 13th at 6:30 pm at the OSU Extension office.

April OCVN Meeting

The April OCVN meeting will be held on Tuesday, April 11th from 6:30 to 8:30 pm at the Canfield Fairgrounds (follow OSU signs). David Dimitrie from Case Western Reserve University and Teal Richards-Dimitrie from EnviroScience, Inc. will present *Reptiles and Amphibians of East-NE Ohio*. Details can be found in the flyer attached to this newsletter.

March MGV Meeting

Pam Baytos presented *Saving Seeds*. Pam discussed why we save seeds, how to extract and dry them and how to properly store them for planting next growing season!

March OCVN Meeting

The March meeting was a round table meeting of OCVNs in Mahoning County. The group explored partnerships, collaborations, cooperative arrangements, and training plans for the future to assist local nature centers with volunteer training.

Fair Station Meetings

*The fair is a month closer! We still need 5-gallon containers for growing tomatoes and artichokes.* I hope all stations have met and planned what their station will contain for the fair.

We will have a Station Leaders meeting before the regular MGV meeting on June 8th at 5:30 pm. At this time each station leader can explain to the group what their set up will be, what they need help with, and anything else they might need for the fair.

**CHANGE OF DATE:** Vegetable growers will meet on Monday, April 17th at 9 am to wash, spray paint & distribute containers for our vegetable plants. I know we planned to meet on Thursday, May 3rd but Lori Moff said if we are going to wash containers at the extension office we have to do it on a Monday when the Drivers Bureau is closed. Let's hope for good weather. Many of you will be planting in May and some seeds need to be germinated in the containers where they will grow. So, our meeting is changed to April 17th at 9 am. At this time you will receive your containers, soil and seed packs. We will go over the planting and germinating process. I know some of you work the Clinic on Monday, but this is the only time we'll be able to get our containers ready for seeds.

Interesting – From *American Nurseryman* magazine 2/17. The loss of ash trees to the EAB has more consequences than just the loss of shade. A study in Cincinnati by the USDA Forest Service correlated crime rates in the city to the extent of tree loss to EAB. No direct cause and effect relationship, but several other studies have shown a positive effect of well-maintained landscapes on reducing crime rates. Replacing trees should be a priority in high crime areas.
