Bring One Take One

President Pam's Perspective

Pam Baytos

2018 INTERNS WHO HAVE 50 + HOURS!! Congrats.

Stephanie Barkay
Natalie Frazier
Tom Petrilla
Jackie Smith
Chet Kaschak
JoAnn Kaschak

Those of you who have not signed into the VMS system (you know who you are!!) Please do so. Refer to your volunteer handbook pages 15 and 16. If you still need help call me.

Event Registration:

Please call the front desk to register for classes. Many MGVS are emailing back a registration. In order to get on the list, we ask that you call to register or drop off your registration at the front desk at the OSU Extension Office.

Spring Seminar:

It's early, BUT, we'd like to be super organized (kinda scary). We have a new building this year, the Arts and Craft building, and have Laura Deeter as our keynote speaker. Bring your ideas for classes, how to better advertise to bring in a larger crowd, etc. And sign up for this committee!!!!

Pam Baytos & Marilyn McKinley on their trip to Canada

BOTO Thank You

A really big **Thank You** to all who helped make this year's BOTO a success. We had an enthusiastic crowd of "plant exchangers" who went home happy with their new botanic treasures. The weather was perfect and the variety of plants to be exchanged diverse. The Garden Art section was a hit with many stopping to view the display. The MGVS not on the committee who showed to lend a hand were truly appreciated. With everyone pitching in, cleanup was fast and efficient. Last, but certainly not least, a very special thank you to Lil Quaranta whose organizational talents pulled everything together, who wrote a great article for the Vindicator promoting BOTO, and who kept the event running like clockwork. It was a great morning!

In order to make next year's BOTO even better, we welcome your suggestions. The committee has a few things in mind but would love input from all of you that were there.

The Volunteers Who helped Make Bring One—Take One Another Success!

Chairs: Carolyn Fankhauser, Pinky Steffen, Lil quaranta

Committee- Tom Petrilla, Erika Untch, Jacqueline Smith, Chet Kaschak, JoAnn Kaschak, Duana, Holzer, Charlene, Hughes, Nancy Brundage, RHonda Harris, Pat Crystal, Merilee, Pilkington, John Perry.

2018 MGV MEETING SCHEDULE

September 13—September Produce Challenge OSU Extension Office 6:30 pm

October 11—Sheila Cubick will present a program on her July 2017 trip to and tour of the Minnesota Landscape Arboretum OSU Extension Office 6:30 pm

November 8—Fellows Christmas Tree Preparation

December 3—2018 ANR Volunteer Banquet—6pm—10pm LaRiccica Pavilion—Rotary Room at Boardman Park

2018 OCVN MEETING SCHEDULE

We will be meeting the third Mondays of each month. Social Time 6:30 pm Meetings from 7:00 pm—8:00 pm

September 17—Plan OCVN Training for January-May 2019

November 5—Clarence R. Smith Mineral Museum at YSU. 6:30pm to 7:30 pm. The museum is located in the atrium of Moser Hall and home to a vast mineral collection. Details on parking will be sent to OCVNS and placed in ANR volunteer newsletter. Please call office at 330-533-5538 to RSVP.

2018 Naturalists Series (Open to the Public)

September 17 —Citizen Science, Adam Zorn

October 24—Bats by Marne Tichenell, OSU Columbus

December 2—Backyard Bird Feeding by the Audubon Society of Western Pennsylvania. 4:00pm to 5:00pm. Yellow Creek Park, Struthers

Ohio State University Monthly Bee Lab Webinar Schedule

September 19—Kelley Tilmon, OSU Entomology—Pollinator Diversity in Ohio Soybeans.

October (DATE TO TBA) - Randy Mitchell, The University of Akron—The Ohio Bee Survey: In Search of the Rusty Patched Bumble Bee.

Webinars are at 9:00 am Eastern, typically on the third Wednesday of the month. All webinars are free and registration is not required.

To join a webinar, follow the link below and LOG IN AS A GUEST at about 8:55am the day of the event: http://go.osu.edu/the_OSUbuzz

GREEN TEAM

Kim Lewis from the Green Team is doing a special composting class that is ONLY for MGV's and OCVNs. The program will be held on Thursday, September 13th from 1pm -3pm at the OSU Extension Office. All are welcome to attend, RSVP by calling the office. At this time we have passed the deadline for ordering composting bins. Those who RSVP now will simply attend the meeting.

OCVN—We hope you are planning to attend our September 17 event. If you are, please call the office to register so we can plan for handouts – 330-533-5538.

Here's an overview of the evening:

6:30-7:30pm – Adam Zorn will cover iNaturalist, with a little intro on citizen science and why it is important. Some discussion as to what we can and should be doing as groups/citizens.

7:30-8:30pm – We want to continue the discussion as a group. Here are the topics:

- Trail Cam Project – Hugh will explain his ideas and information for a trail cam project.
- Beech Leaf Disease – We have confirmation of this disease in Mill Creek MetroParks as of last week. Thus, we will discuss what we can do to help with some ground truthing in the area. Some details from Enrico Bonello, our tree expert working on the disease:
 - a. An app developed by Cleveland Metroparks and Connie Hausman is called “ParkApps NE Ohio.” Within the app is a citizen science category with two specific programs that allow you to learn about the symptoms of beech leaf disease and also track the location of infected trees and the severity of symptoms. <http://parkapps.kent.edu/>
 - b. There is also another app, this one meant to help with recording the position of trees that are apparently resistant, i.e. looking great in the midst of destruction (think lingering ash). It's out of the U. of Kentucky and is very easy to use: <https://treesnap.org/>
 - c. We'll want to divide up the area, then get volunteers to go in pairs to do the ground-truthing.
- Brood VIII Periodic Cicadas – We will discuss educational strategies for the public, along with ground-truthing exercises to confirm/identify the spread of this brood in Ohio.

MEETING—

- We may or may not have time to do a meeting. If we do not, we will get committees to write up notes to send out to the group.
- 2019 Naturalist Series – Find our schedule/flyers for the 2019 Naturalist Series on our website at: <https://mahoning.osu.edu/events>
- FIELD TRIP - November 5—Clarence R. Smith Mineral Museum at YSU. 6:30pm to 7:30 pm. The museum is located in the atrium of Moser Hall and home to a vast mineral collection. Details on parking will be sent to OCVNS/ placed in ANR volunteer newsletter. Please call office at 330-533-5538 to RSVP.
- December 3—2018 ANR Volunteer Banquet at Boardman Park

Again, please call to register if you are planning to attend on the 17th.

Thanks so much, Eric

Join us at the 2018 Cleveland Pollinator & Native Plant Symposium!

It will be held at the **Wooster Research Campus of Ohio State University** on Friday, September 21, from 8am-4:30pm. Our fourth annual symposium brings together well-known experts for a lively exchange of information and expertise. They will share the most up-to-date information on pollinators, native plants, pesticide usage and best practices in creating ecologically sound habitats. This educational and exhilarating symposium will energize your approach to gardening! Learn how you can make a positive difference in your community and world.

DETAILS & REGISTRATION

Snookie Wolbolt was the one who contacted the clinic about removing a large European Hornet's nest from her barn/shed.

David Sprague and Snookie Wolbolt next to the hive that was removed from her property this past February by Pinky and David. Pictures taken August 30, 2018 at Canfield Fair by Patty Basic

Coffee with Master Gardeners

Nancy Wloch, Master Gardener volunteer, gave a wonderful program on "The World of Insects" on 8/13/18. Nancy gave a background on insects as they have been on the planet for over 400 million years. She provided us with great handouts for classification of insects and the characteristics of each class. Great reference material to have. Her slides were excellent in the PowerPoint. Nancy also did a section on Integrated Pest Management which is control of pests with the least amount of chemicals. Well done, Nancy

Refreshments as usual were delicious.

Nancy Brundage, Master Gardener Volunteer

Upcoming Public Programs with Mill Creek Metroparks:

10/14/18. Bats by Marne Tichenell at MetroPark Farm

12/2/18. Birds. Information TBA

2 or 3/19. Dale Gnidovec, OSU Orion Museum. TBD. This is a program you WILL NOT WANT TO MISS. This speaker is fantastic. He did the program on the Ice Age this year.

5/7/19 6:30 to 8:00 pm. Tree Communication and Natural Defenses. Dr Enrico Bonello OSU. Fellows Riverside Gardens.

6/20/19. 6:30 to 8:00 pm. Coyotes in Northeast Ohio. Jon Cepek. Cleveland MetroParks. Mill Creek Metroparks Farm

8/10/19. 7:30 to 9:30 pm. A Concert of Crickets and Katydid. Dr Lisa Rainsong.

Mill Creek Metroparks Farm

9/11/19. 6:30 to 7:30 pm. Growing Caterpillars: A Tale of Birds, Plants, and Conservation. Jim McCormac. Fellows Riverside Gardens

11/5/19. 6:30 to 8:00 pm Birds of Prey. Heather Merritt. Mill Creek Metroparks Farm

September Produce Challenge

For the past three years, flower/foliage/houseplant growers have competed at the July meeting. This year we are adding a produce show. You will be asked to complete a card with the name of the variety of each of your entries (for example, Better Boy tomato). Your name will not be on your entries. Fellow MGVs will place a chip in a pot in front of their favorite in each category. Prizes will be awarded for first place (the most chips) in each category.

You may enter as many of the categories as you like, but only one entry per category.

Plate of 3 tomatoes, same or mixed varieties

Plate of 3 peppers, same or mixed varieties

Plate of 3 squash, same or mixed varieties

Gourds/pumpkins 3, same or mixed varieties

Herb bouquet

Three of one kind of any other vegetable, variety may be mixed

Join in the fun and show off the results of all your hard work (watering) this summer.

August MGV Meeting Minutes Meeting 8-9-18

The August meeting was held at the backyard of Peg and Jim Zeleznik. Thank you for your hospitality and lovely setting for a meeting.

11 members brought snacks and desserts (our members do know how to bake) which were enjoyed after the meeting. An announcement was made that Michael Sovik, a former coordinator at the OSU office had died. I am sure many of our long term members remember him. President Pam Baytos opened the meeting with the pledge on a neighbors flag.

Committee Reports:

FAIR: Rhonda Harris said we can now leave the center tables up but just need to remove all items from them on Wednesday and Saturday mornings. Setup will begin at 9:00 am Monday, August 27th. This will be for the structures on the stage. Bring plants at 11: am. OCVN will have a water feature and pollinator plants; the tree is in question. A suggestion was made that Park's might loan us a live tree. Take down will be on Tuesday, September 4th. Parking passes for the office and tickets will be mailed soon. The last crew each evening will be responsible for watering. Do's and Don'ts for working will also be sent. The emphasis of the fair this year is STEM. We will be having a scavenger hunt in out area with small rubber bugs as prizes.

CLINIC: The clinic will have their own table. Clipboards will be available. Handouts will be available on soil tests and activities. Questions will be taken. The Master Gardener banner will be displayed. The clinic is open through the end of October.

BOTO: The event will be August 11th. Workers are to meet at the Pumpkin barn at the fairgrounds at 8:30 am. Those bringing plants will be asked to park and a volunteer will take their plants for identification. No plants with bugs, diseases or invasive.

STATE CONFERENCE: The conference is September 28th and 29th in Cincinnati. Other upcoming seminars are in Cuyahoga and Massillon. Information will be put in the newsletter.

SPRING SEMINAR: The seminar will be April 27, 2019 with most activities in the Arts and Crafts building at the fairgrounds. If you teach a class, you attend for free. More people are needed to attend. Possibly have a flyer in the Men's Garden Club packet at their seminar or poster at the fair.

GROUNDS: Trimming of the roses will be on

August 14th from 4-8pm.

PHENOLOGY: The program is basically on hold until a pollinator garden can be made but not until the driveway project is done. Currently, the plants are scattered around the grounds and tags are difficult to read. A new listing of the plants needs to be made.

JR. MASTER GARDENERS: The group had a huge harvest of green beans and tomatoes.

LOCAL FLAVOR: On August 13th, there will be a tour at Flying High at 6pm

INTERNS: Congratulations to the interns who have already achieved their 50 volunteer hours. They are: Stephanie Barkay, JoAnn Kaschak, Natalie Fraiser, Charlene Hushes, Tom Pertilla and Jacqueline Smith. They will receive their badges at the banquet.

OTHER ITEMS: Eric said that we should call the office to register for classes. Read your handbook on how to report hours. If you are learning, it is education. The VSM system is slow and is supposed to be redone. Compost class will be September 13th from 1-3pm. Some new committee suggested at the board meeting were Field Trip or Activity and Publicity. At the September 13th meeting, there will be a produce show. On August 10th there is a clinic class from 10am to noon and a writing class at 12:45 pm. All are asked to attend a writing class. There is a billboard on Market Street with information on Valley Grows page in the Vindicator. On September 24th there is a Mindfulness in the Garden program. Over 500 people attended the butterfly festival. Columbiana County fair has an exhibit of container vegetables and herbs by the Master Gardener interns. The DEADLINE FOR THE NEWSLETTER IS NOW THE 15th OF THE MONTH. Please think about writing an article. The email for the newsletter is mgvnewsletter@gmail.com

The meeting was adjourned at 8 pm.

Nancy Brundage –OCVN/MGV
Co-Secretary.

The feast at August's
Meeting

Bring One Take One

Our Heirloom Perennials

Joyce Karsnak

I lived at the end of a dead end on 36 acres in Petersburg for my first 28 years and then moved to Rt. 62 in Canfield, quite an environment shock. I miss the Petersburg I grew up in, with corn fields and farms, but not the Petersburg of today because coal and limestone mining ruined so much of it, including my old home which no longer stands. I wrote a history of the town, first for a senior English class project that won a prize in state competition. I was asked to expand on it for the 1976 bicentennial celebration. "The Four Corners" a history of Petersburg is still in print and sold by the township's historical society.

My mother and her father both gardened, starting plants in their cold frames. Dad was a city boy and has never learned to hoe properly (by design I think) but he's in charge of tilling and spraying (at 92). My grandfather grew potatoes and tobacco – so I learned to roll the sticky leaves at an early age. He'd chop it up for his pipe and store it in tin coffee cans. I was planting peppers with a "crooked stick" at three. We had raspberries, currants, an apple orchard, honey bees and too many dogs and cats to count. With no siblings, I was never bored.

I was looking for folks who had the same interests as me, so I took the MG class in 2005 of 13 along with Bill Snyder and June Nolasco. It was held at Loghurst. We packed our lunches then; today's classes are spoiled! As an accountant working full time then as I do now, I took vacation days to attend class.

My least favorite thing about gardening is corralling my vegetable garden in fishing line above my bunny height fence to keep out the deer. I run the line between tall bamboo and tomato stakes, but it also keeps me from jumping over to grab some parsley. Grrrr.

Today, my vegetable garden is top priority. I carry on my mom's tradition of processing tomatoes into sauce and soup. But, I admit, I like growing flowers better than vegetables. My zinnia won best of show twice at the Canfield Fair. The first was a Dreamland Coral, which is a border variety. The second was Parks Pick Purple and that year those zinnias were used in bouquets at my cousin's wedding – I made all the reception tables and bride/bridesmaids

bouquets. The only purchased flowers were roses and alstroemeria, the rest were grown by my mom and me. My dad oversaw the July wedding week cool storage and logistics. I am reminded of that year 2012, when the weather reporters compare high temps and drought to the record holder 2012. Brings back memories of hosing flowers at 6 a.m. before work and flying out to the garden to pick them off ahead of a severe thunderstorm warning two days before the wedding. It was a once in a lifetime event, i.e., never again!

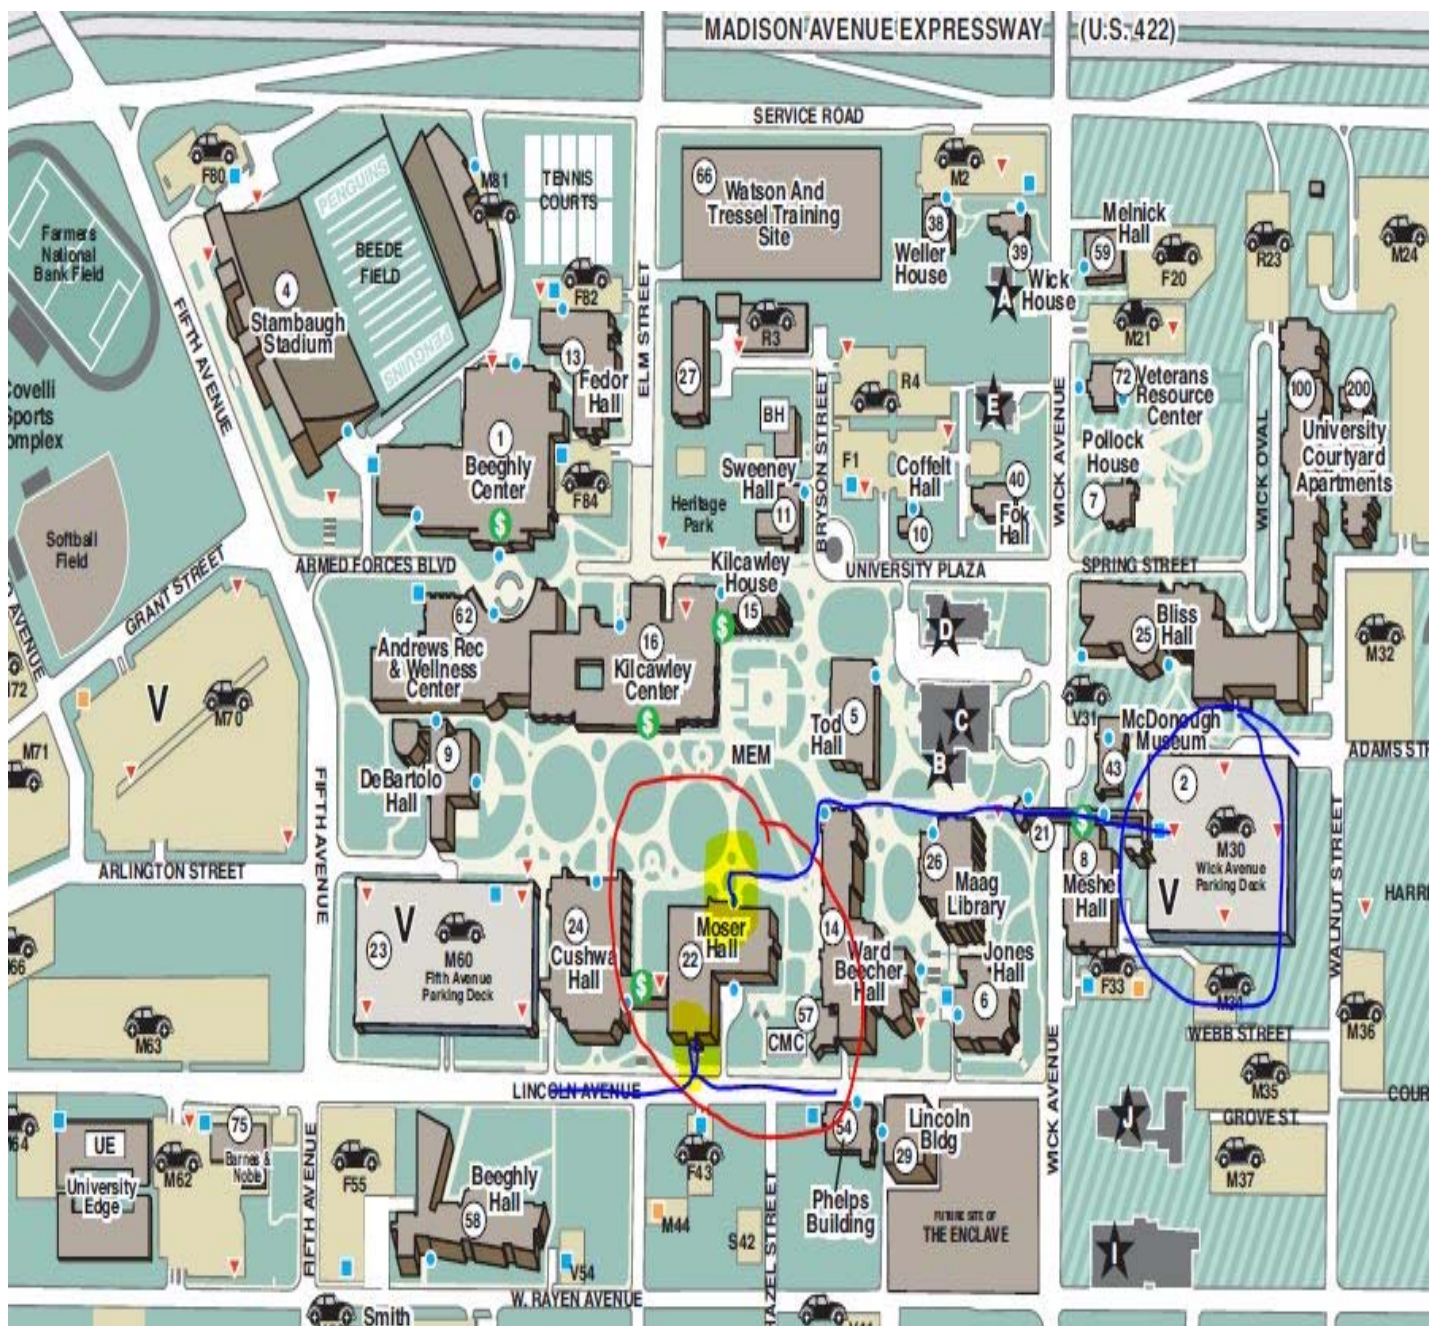

Joyce and her beautiful flowers prepping for her cousin's Wedding.

OCVN November Meeting Directions

1. There is both meter and regular street parking available on Lincoln Avenue on a first come, first-served basis. Moser Hall, the location of the museum, is located on Lincoln Avenue.
2. The Wick Parking Deck, located on Wick Avenue, is available to guests at a charge of \$5 per vehicle. There is a pedestrian bridge that crosses Wick Avenue from the parking deck.

Parking on Lincoln Avenue would likely be preferable, as it has the potential to be free and is very close to the museum. However, spaces might be limited. Parking in the Wick Deck, while not a very long walk, would be pricey unless carpooling is an option for the OVCNs. On a side note, the \$5 charge for the Wick Deck would grant the vehicle all day access to visitor parking on campus, should that appeal to anybody in the group.

Below is a campus map with Moser Hall circled in red, doors to enter Moser Hall highlighted in yellow, and both parking options noted in blue.

Herbal Harvest

Growing your own herbs is a fun and aromatic way to spice up your home. But, proper harvesting is key to successful herb gardening! Join us to learn more about herbal harvest.
