Life Beneath the Surface: Exploring Aquatic Ecosystems in Mahoning County

Aquatic ecosystems are vital indicators of environmental health and play a critical role in water quality, wildlife habitat, and community resilience. This presentation will explore local streams, rivers, and wetlands in Mahoning County, highlighting aquatic organisms, watershed connections, and how human activities influence aquatic systems. Participants will also learn simple ways they can help protect and improve local waterways.

Speaker: *Zack Felger, Outreach & Education Specialist
Mahoning County Soil & Water Conservation District*

Credit Cards are now accepted. Call 330-533-5538 to register.
