

A Special Lunch & Learn Program

# Palmer Amaranth: A NEW threat to crop production in NE Ohio

Friday,  
**September 25**  
11:30am-1:30pm

**Featured speaker:**  
Dr. Mark Loux  
OSU Extension  
Weed Scientist

**Palmer Amaranth has been found in Mahoning County!**

Join us to learn control options

**Management starts now!**

This weed produces 100,000-500,000 seeds per plant. It has a long emergent period (April-August), grows up to three inches per day, is tolerate to post herbicides unless small, and causes lots of crop production issues!

- **What is it and why is it such a problem?**
- **Impact on crop production.**
- **Sources of new infestations and how to prevent them.**
- **How to identify!**
- **What to do if you see it?**

**THE OHIO STATE UNIVERSITY**

COLLEGE OF FOOD, AGRICULTURAL,  
AND ENVIRONMENTAL SCIENCES

Mill Creek MetroParks Farm  
7574 Columbiana-Canfield Rd. Canfield
