# Agricultural Fertilizer Applicator Certification

2-hour training for those  
with an ODA pesticide applicator license

## Two Opportunities

CFAES provides research and related educational programs to clientele on a nondiscriminatory basis.  
For more information: [go.osu.edu/cfaes.diversity](http://go.osu.edu/cfaes.diversity).

### Fulfills certification requirements

These meetings will fulfill the two-hour requirement for applicators who need agricultural fertilizer applicator certification and currently have a pesticide applicator license. Those applicators who have a license have two options for certification in our area.

### Who needs the agricultural fertilizer certification?

Fertilizer certification is required if you apply fertilizer (other than manure) to more than 50 acres of agricultural production grown primarily for sale. If you hire a co-op or other custom applicator to make your fertilizer applications, you do not need certification.

### What will be covered in the training?

Best management practices will be the basis of the agricultural fertilizer certification training with a focus on fertilizer applications that have the appropriate rate, timing, placement and source.

**Thursday,**

**November 10**

12:30 pm-2:30 pm

OSU Extension – 490 S. Broad, Canfield

**Friday,**

**December 16**

12:30 pm-2:30 pm

OSU Extension – 490 S. Broad, Canfield

---

**Pre-registration is required.**
